

HUỖNH LONG

DEVOPS ENGINEER | INFRASTRUCTURE ENGINEER

0935 269 851 | huynhlong2303la@gmail.com | longh.org | github.com/herry-huynhlong

Date of Birth: 23 Mar 2000

PROFESSIONAL SUMMARY

DevOps / Infrastructure Engineer with hands-on experience administering ERP systems, Linux servers, CI/CD automation, Docker, Nginx, DNS, SSL/TLS, AWS, and production web infrastructure. Experienced in end-to-end infrastructure delivery - from hardware selection and server provisioning to application deployment, access control, troubleshooting, and ongoing operations.

TECHNICAL SKILLS

Linux & Infrastructure: Linux, physical servers, storage, networking, SSH, firewall

DevOps & Delivery: GitLab CI, GitHub Actions, Docker, Git

Web & Networking: Nginx, Apache, DNS, SSL/TLS, reverse proxy, PHP

Cloud & Operations: AWS EC2, Elastic IP, Security Groups, Cloudflare, ERP administration

PROFESSIONAL EXPERIENCE

DevOps Engineer / Infrastructure Engineer | DongNgo Group

2024 - Present

- Administered and supported the company ERP system, including user access, service availability, incident troubleshooting, and day-to-day operational support.
- Built and maintained CI/CD pipelines using GitLab CI and GitHub Actions for repeatable application delivery.
- Deployed and operated Dockerized applications on Linux; configured Nginx, DNS, SSL/TLS, and reverse proxy services for production workloads.
- Performed operational troubleshooting and maintenance across ERP, Linux, and web infrastructure to keep business services available.

System Administrator / Infrastructure Engineer | Minh Duy Technology

2022 - 2024

- Planned server infrastructure from business requirements through hardware selection, procurement, and deployment.
- Installed and configured physical servers, storage, networking equipment, and Linux operating systems for production use.
- Deployed and maintained Linux servers for company websites and internal services; configured Nginx/Apache, PHP, databases, DNS, SSL/TLS, firewall rules, and reverse proxies.
- Delivered production-ready server environments end to end, from hardware procurement to website deployment.

EDUCATION

Bachelor's Degree | Dong A University (Đại học Đông Á)
